Visionary Machines announced as Hanwha Defense Australia VenomX partner

Sovereign Australian SME, Visionary Machines, is announced as a Hanwha Defense Australia VenomX partner, bringing their disruptive perception technology to the Australian Army in a collaborative proposal to the Robotic and Autonomous Systems Implementation and Coordination Office (RICO).

Visionary Machines CEO Gary Aitchison said: "We are delighted to be working with such a world-leading team in the autonomous logistics space. This is a critical project that can save lives and increase efficiency.

This is a great opportunity for an Australian SME to participate in the Army RAS strategy, working on Hanwha tracked vehicles that are at the forefront of a modern military force."

Visionary Machines joins [Deakin University](#), [4Zero](#) Technologies and [ECLIPS Logistics](#) as VenomX Australian partners.

About Visionary Machines

Visionary Machines creates super-human vision for trusted machines that enhance community safety and productivity. Staffed by a group of world-leading computer vision and robotics experts, the company simplifies and empowers automation, navigation and surveillance with passive camera-based 3D perception systems. Visionary Machines is a sovereign Australian company — headquartered in Sydney, Australia with a research arm in Oxford, United Kingdom.

About Hanwha Defense Australia

Hanwha Defense Australia is a subsidiary of Hanwha Aerospace, a division of the vast Republic of Korea Fortune 500 conglomerate Hanwha Corporation. Hanwha Corporation has been operating in Australia since 2005 in areas including mining equipment, logistics and sustainable energy.

Headquartered in Melbourne, Hanwha Defense Australia was established in 2019 with an initial focus on Land Systems. The company signed a contract with the Commonwealth of Australia to supply self-propelled artillery systems under LAND 8116, a \$0.9 billion to \$1.3 billion project. These vehicles will be manufactured in the Greater Geelong area of Victoria at the HDA Armoured vehicle Centre of Excellence (H-ACE), now under construction.
